

ANDREW PETER BOKA

9817 Royal Lamb Drive, Las Vegas, NV 89145

Email: bokaa@berkeley.edu Website: andrewboka.github.io

Objective

To participate in research or work experience that further develops my problem-solving abilities, teamwork skills and overall competence in the field of computer science and engineering.

Education

University of California, Berkeley – Berkeley, CA **Class of 2020**
College of Engineering – Department of Electrical Engineering & Computer Science
Pursuing a Bachelor of Science Degree in Computer Science & Engineering

Faith Lutheran High School – Las Vegas, NV **June 2016**
High School Honors Diploma with STEM Computer Science Endorsement

Relevant College Coursework

Structure and Interpretation of Computer Programs	Data Structures & Algorithms	Foundations of Data Science
Designing Information Devices and Systems I & II	Multivariable Calculus	Linear Algebra for Data Science
Physics for Scientists & Engineers I & II	Differential & Integral Calculus	

Technical Skills

Programming knowledge in: Python, Java, C#, SQL, Scheme, and Objective C
Research and teamwork skills acquired in prior school projects and internship
Proficiency in Windows/Mac OS, Microsoft Excel, PowerPoint, Word

Work Experience

UNLV Department of Computer Engineering High School Internship June-October 2015
Designed a computer game for self-directed physical therapy to children with cerebral palsy as part of an interdisciplinary research program led by Dr. Brendan Morris and conducted in the Real-Time Intelligent Systems Laboratory.

UNLV Department of Computer Engineering REU Internship May-August 2018
Designed and implemented a low cost, high quality facial recognition system for real-time monitoring of access and exit to secure facilities under the direction of Dr. Brendan Morris, Associate Professor of Electrical and Computer Engineering and Director of the UNLV Real-Time Intelligent Systems Laboratory.

Projects

Design of Relational Database Management System (SQL) February 2017
Worked with a team of students in an undergraduate course to design and implement a relational database management system as well as a domain specific language so that the user could interact with the database.

Extracurricular and Leadership Activities

UC Berkeley Club Golf Team – Fall 2016 NCCGA Pacific Region Champions	2016-Present
High School Varsity Golf – 2015 Nevada State Championship Team; All-League 1 st Team; All-State Academic Team	2012-2016
Eagle Scout – Designed and implemented a golf/life skills program for underprivileged children	2015
Young Men's Service League – Philanthropy Chairman	2012-2016

Honors

Commended Student, National Merit Scholarship Competition	2016
AP Scholar with Distinction, College Board	2016
Presidential Scholar Candidate, White House Commission & U.S. Department of Education	2016

Papers and Presentations

Boka, A. & Morris, B. "Serious Games: Development of Physical Therapy and Rehabilitation Game for Children with Cerebral Palsy." First Annual OUR-UNLV Fall Undergraduate Research Showcase, Las Vegas, NV, October 16, 2015.
